

Reply to All

Reply All: Please NEVER use this button! There really is no need to ever use this feature! Most people have no idea the havoc it brings. If you use this 'Reply All' to merely respond back to one individual...well let's say you have just sent an unappreciated e-mail to anyone that was ever on the senders list, attached to this e-mail! Yes, you now have sent your personal, maybe a private message to people that you do not even know! The 'Reply' button is O.K. to use.... Just be careful that you do not use the 'Reply All' by mistake. Enough said!
